Fine Line 24V

Lumitex
LED LIGHTING

Fine Line 24V

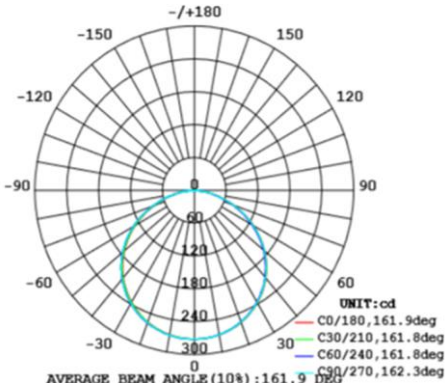
A commercial grade flexible architectural strip light with excellent colour rendering.

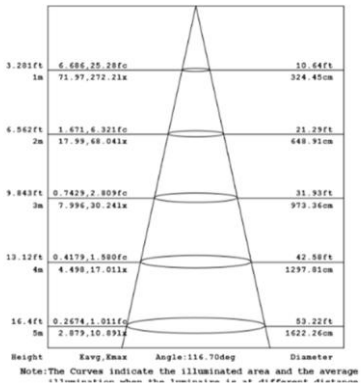
The high density chip spacing delivers bright, uniform lighting without the shadowing and "spots" associated with conventional linear strip lights. Unprecedented efficacy of >150lm/W delivers more Lumens with less energy consumption than ever before.

Creating stunning features in commercial and residential applications is now even easier.

≥90 CRI

Fine Line 24V





Features:

- Excellent uniformity
- High brightness
- Easy to install
- Superior colour rendering

Accessories:

- Non dimmable power supply option
- Mains dimmable power supply option
- 1-10 volt dimmable option
- Dali dimmable option

Specifications:

- Voltage Input: 24VDC
- Efficacy: 150lm/W
- Beam Angle: 120°
- CRI: >90
- Ingress Rating: IP20
- Dimensions: Width=10mm, Length=5m
- Warranty: 5 years

Options:

- CCT:
-3000K, 4000K, 5000K
- Wattage:
-5W/m, 11W/m

Part Number	Lumens (Lm)	Watts (W)	CCT (K)
