

CASE STUDY

Cararra Gardens

Night Golf

Gold Coast

PROJECT SUMMARY

Goal

Create an environment where night golf becomes a reality.

Achievement

A gold course that is as appealing at night as it is during daylight hours.

CASE STUDY - Night Golf

Lumitex Solution

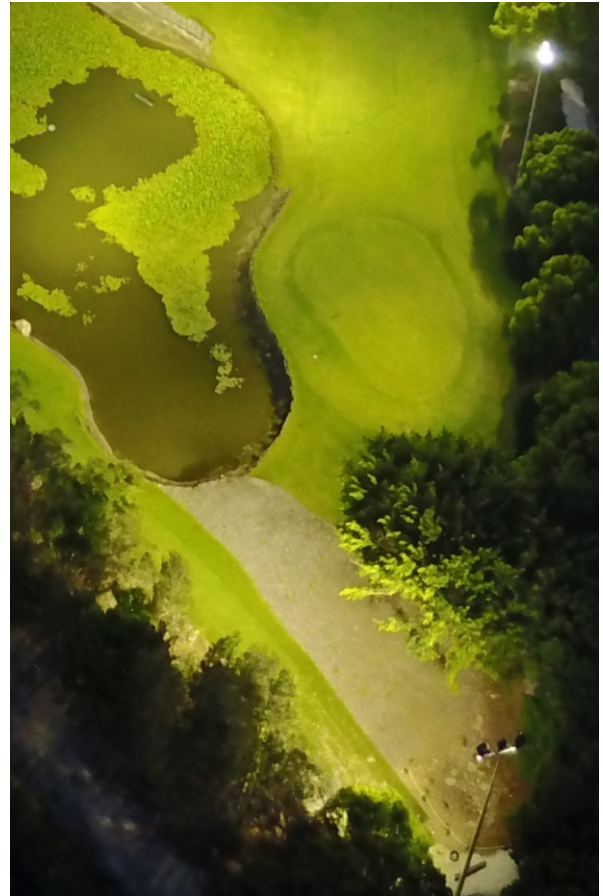

KDC Sport had a vision to create a night golf experience for its customers on the Gold Coast.

Lumitex was engaged to design a lighting layout that would be a welcoming attraction and ultimately extend the operating hours of the course.

Design considerations included nearby roads, undulating terrain and those pesky obstructions for avid golfers, the trees.

62 floodlights were required to illuminate the entire course.

The end result delivered the outcome sought by the course management and made night-time golf a reality on the Gold Coast.

PRODUCT USED

If you have an outdoor area you would like upgraded with Lumitex LED lighting, contact us for an obligation-free discussion.
