PROJECT SUMMARY

Goal

Add new poles and install new LED lighting capable of meeting 100 Lux average illumination.

Achievement

Output meets Australian Standard AS 2560.2. Uniformity is excellent, 100 Lux target is met and glare/uniformity is significantly improved.

CASE STUDY - Kojonup AFL Oval

Lumitex Solution

Shire of Kojonup had a vision to add LED sports lighting to their community sports field. The lighting needed meet 100 Lux average illumination.

The field is used for football and cricket and needed a drastic improvement in night-time visibility.

Lumitex applied its Ludex sports lights to deliver the solution, resulting in exceptional uniformity and a community enjoying the venue well past sundown.

Lumitex provided fundamental technical support to ensure the expected outcome and enjoyed working closely with the local team in Kojonup.

Before

Glare

Hotspots

After

Significant improvement in glare and uniformity
