# ***CourtMaster***

An advanced residential  
tennis court lighting solution

# Lumitex has applied its commercial tennis court LED lighting technology to create a superior residential solution.

The CourtMaster LED tennis court light delivers unprecedented uniformity with greatly reduced glare compared to conventional lighting. Asymmetric lens design limits obtrusive light and helps contain light spillage on to neighbouring properties. CourtMaster will impress with its performance and “instant on” convenience.

## Experience...

- ✓ Exceptional uniformity
- ✓ Superior glare control
- ✓ Energy efficient operation
- ✓ Precision optics
- ✓ Reliability and longevity
- ✓ “Instant on” convenience

Contact us for an obligation-free discussion to learn how we can upgrade your existing tennis court lighting, or create a lighting design for a new court. Call us for initial guidance and order conveniently through the electrical wholesaler network across Australia.

Glare from normal floodlights
