

MytiStar

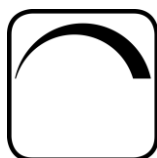

A high performance 90mm cut-out recessed downlight with convenient CCT selection.

Choose from warm, cool or daylight, easily selectable after installation. The 4000K (cool) option offers an impressive 1000 Lumens, very similar in appearance and performance to the wide beam Mytilux it replaces, but with even better value.

MytiStar features interchangeable bezels, so the white bezel can be quickly changed to an optional brushed alloy bezel when necessary.

MytiStar is compatible with Diginet MEDM dimmers and has IC-4 coverable compliance.

Features:

- CCT selectable after installation
- High output
- Interchangeable bezel option after installation
- IC-4
- IP44 (front surface)
- Slab canister compatible
- Remote mountable driver

Options:

- Brushed aluminium bezel
 - LUMD22TRMBC
- Adapter ring to suit 110mm cutout
 - LUMR80S (brushed aluminium)
 - LUMR80W (white)
- Slab canister clips
 - LUMSLABPAIR

Specifications:

- Voltage Input: 200-240VAC
- Power Factor: ≥ 0.9
- CRI: ≥ 84
- Operating Temp: -25° to $+50^{\circ}\text{C}$
- Ingress Protection: IP44 (front surface)
- Cut Out Size: 90mm
- White Frame Colour (Standard)
- Dimmable: Phase dimmable
(see website for dimming compatibility)
- Warranty: 5 years

Part Number	Watts (W)	Lumens (Lm)	CCT (K)	Frame Colour	Efficacy (Lm/W)	Beam Angle
